

## Series and Course list

Our material is divided into several Training Series, with each Series having a distinct character and typical course groupings. New courses, tailored to clients' requests, can be offered within any of these Series.

### Early Development

Graduate foundation training  
Foundation training for mature hires

### Reservoir

Basic geoscience  
Geophysics  
Petrophysics  
Core description  
Production geology  
Reservoir modelling  
Advanced reservoir modelling  
Fractured Reservoir Characterisation  
Field-based Technical Workshop (Northumberland)  
Geology for Drillers  
Reservoir engineering  
Introduction to horizontal well performance  
Well testing  
Fractured reservoir engineering  
Prospect evaluation

### Business & Risk

Strategy & Performance Management  
Petroleum economics  
Advanced petroleum economics  
Risk analysis  
E&P business simulation  
Petroleum risk and portfolio management  
E & P business simulation (team work event)  
Asset trading game  
Effective Reserves Valuation and Reporting

### Open Air

Moray Coast-based events (UK)  
Northumberland-based events (UK)  
Derbyshire-based events (UK)  
Yorkshire-based events (UK)  
Dorset-based events (UK)  
Tunis-based events (Tunisia)  
Tabernas-based events (Spain)

### E&P Overview

E&P Overview (1 day)  
Introduction to exploration and production (3 day version)  
E&P for technical support staff (3-5 day version)

### Wells

Introduction to drilling  
Well management  
Well productivity awareness school  
Well intervention productivity school  
Well Interventions  
Introduction to completion design  
Completion installation  
Tubing stress analysis  
Well Awareness  
Well interventions  
Drilling fluid technology and management  
Drilling waste and environmental management  
Drilling for petroleum engineers (also available in Russian)  
Integrated well planning & drilling operations

### Coaching

One-to-one coaching programmes  
One-day personal coaching modules  
Self-learning modules  
Team-building courses  
Workshop facilitation  
Asset Value Assurance (AVA™) reviews

### Master Class

Completion design Jonathan Bellarby  
Risk Analysis Eivind Damsleth, Mark Cook & Mark Bentley  
Horizontal wells John Gallivan  
Heavy oil development Paul Baron  
Reservoir modelling Mark Bentley  
Fractured reservoir modelling Tim Wynn & Sven Tiefertal  
Effective Reserves Valuation and Reporting  
Sven Tiefertal & Mahmood Akbar  
Carbon capture and storage  
Bryan Lovell, Mark Bentley, Jonathan Bellarby & Paul Baron
